Abby:

Thanks for sending! One question...when I go to the docket on regulations.gov. I don't see our comment letter. Is there a reason it's not there?

Thanks,  
Robyn

Good Afternoon,

Attached is the comment letter from TCEQ requesting a public hearing for the 2008 ozone moderate area determination of attainment by the attainment date, bump-ups, and extensions proposed rulemaking. The following information is also available on EPA's website [here](#). I will keep you posted with new information as it arises regarding the public hearing. Please feel free to contact me if you have any questions in the meantime.  
Thank you.

EPA will postpone the public hearing planned for January 29, 2019 on its *Proposed Determinations of Attainment by the Attainment Date, Extensions of the Attainment Date and Reclassification of Several Areas Classified as Moderate for the 2008 Ozone National Ambient Air Quality Standards*.  
Due to the government shutdown, the notice announcing the details for the public hearing and reopening the comment period for the proposal was not published in the Federal Register.  
Updated information on the hearing and the public comment period will be posted on the website when it is available.
